SUBJECT: THANK YOU NOTE FOR CONTRIBUTION TO THE NRC WORKSHOP ON VENDOR OVERSIGHT FOR NEW REACTOR CONSTRUCTION

Dear Mr. DeKleine:

We had an outstanding panel session on "Sampling under a Commercial Grade Dedication Program" at the Workshop on Vendor Oversight for New Reactor Construction on December 11, 2008. Your contribution as a panelist was greatly appreciated by Glenn M. Tracy and us. After a most effective and brief presentation, the panel excelled in engaging the audience in a lively and informative discussion of the complex issues. This session highlighted the challenges that lie ahead in the nuclear industry. Thanks for taking time out of your busy schedule to support us in this important public forum.

Sincerely,

/RA/

Juan Peralta, Chief
Quality and Vendor Branch 1
Division of Construction Inspection
& Operational Programs
Office of New Reactors
