Mark McBurnett, Vice President
Oversight & Regulatory Affairs
South Texas Project Nuclear Operating Co.
4000 Ave. F, Suite A
Bay City, TX 77414

SUBJECT: THANK YOU NOTE FOR CONTRIBUTION TO THE NRC WORKSHOP ON VENDOR OVERSIGHT FOR NEW REACTOR CONSTRUCTION

Dear Mr. McBurnett:

We had an outstanding opening presentation on "Industry's Perspective" at the Workshop on Vendor Oversight for New Reactor Construction on December 10, 2008. Your contribution as a speaker was greatly appreciated by Glenn M. Tracy and us. After a most effective and informative presentation, the presenters excelled in effectively answering questions from the audience in a lively and informative discussion of the complex issues. This session highlighted the challenges that lie ahead in the nuclear industry. Thanks for taking time out of your busy schedule to support us in this important public forum.

Sincerely,

/RA/

Juan Peralta, Chief
Quality and Vendor Branch 1
Division of Construction Inspection
& Operational Programs
Office of New Reactors
