Dear Mr. DeLaBarre

Enclosed for your information is an application and letter dated March 27, 2009, recently received by the U.S. Nuclear Regulatory Commission (NRC) from AREVA NP Inc. requesting Amendment No. 01 to import license IW024. The purpose of the amendment is to extend the expiration date from March 31, 2009 to December 31, 2009.

A copy of this letter (with enclosure) is also being provided for informational purposes to EURATOM and interested parties in the U.S. Environmental Protection Agency (EPA), the States of Tennessee and Utah, and both the Southeast and Northwest Low-Level Radioactive Waste Compact Commissions.

Since no other changes to the terms and conditions of the existing license are requested, we intend to issue this minor amendment after the 30-day time period allotted for public review expires and it is determined that applicable import license criteria are met.

Sincerely,

/RA/
