Subject: RE: Distribution License

Mr. Molinario,

Your letter dated May 5, 2009, referred to the FH 62 C14 Series monitors, but said nothing about the Model 5030 SHARP monitor that is also listed on the license. If you will continue to distribute the latter model from the Georgia location, I would not be able to remove that location from your license, and you would need to provide a copy of a current license from Georgia.

If you are no longer distributing the Model 5030 SHARP monitor, please request that it be removed from your license.

Thank you,

Richard K. Struckmeyer

Richard,
I contacted our marketing manager in Georgia and he confirmed that we do not distribute from that state. Is please have our exempt license modified to exclude distribution from Georgia. (See attachment)

Best Regards,

Subject: RE: Distribution License

Mr. Molinario,

Thank you for providing the documents (NRC exempt-distribution license and Massachusetts possession and use license) with your email.

As you may know, the license from the NRC is what gives you the authority to distribute the devices containing C-14. You are correct that you do not need an exempt-distribution license from Massachusetts (nor would they issue one, as this is only done by the NRC). The NRC exempt-distribution license is not valid unless you have a current (i.e., not expired) possession and use license from the state -- which you do, for Massachusetts. So far so good.

However, I will still need to see a current possession and use license from the State of Georgia, if you are distributing the products from that location. If you are no longer distributing from that location, please send a letter (can be an email or a letter as an attachment to an email) requesting that we remove the Georgia distribution location from your license. The letter should state the reason for the request - i.e., that you are no longer distributing from that location.

Let me know if you have any questions.

Subject: Distrubution License

Richard,
My thoughts were to send you what I have now and this will give you an e-mail link to me for all future correspondence.
Because the C14 is exempt I believe we do not require a Massachusetts distribution license but we do have the materials license. (See above)

If I am wrong please let me know.

Have a good week.
