Subject: FW: Errata change

Eddie,

In section 10.4.7.2.1, BLN COL 10.4-2 of the FSAR, the staff believes you intended to say "carbohydrazide" instead of "carbohydride".

" The oxygen scavenger agent is hydrazine and the pH control agent is ammonia/monoethylamine. During shutdown conditions, carbohydride may be used in place of hydrazine "

Please confirm you can make this change in the next revision to the application

Sue
