Subject: FW: Questions re: Response to RAI 02.04.02-3

Ilka,

I am writing as a follow-up to the June 23rd email below. We have a couple of questions:

1. Will our preliminary proposal to increase the height of the dike approximately 6 inches resolve the reviewer's concerns? If necessary, we will schedule another conference call to answer any questions.
2. When will the new RAI be issued?

Regards,

Barry

Subject: Questions re: Response to RAI 02.04.02-3

Ilka,

We have considered various means of addressing the Staff's concerns regarding the potential for North Anna Unit 3 stormwaters to flow over the top of the existing flood dike, as expressed in the June 22 conference call. While there are several options to resolve this concern, we have preliminarily determined that the margin can best be increased by raising the height of dike.

We are requesting that the NRC issue an RAI to document the Staff's concern and provide a way to document Dominion's resolution/response.

Regards,

Barry
