Hi Jerry,

I went ahead and reserved some rooms in case we go forward with the meeting.

George,

If the meeting is here and we plan to docket the information collected, it will need to be a public meeting with a 10-day notice. The bottle neck is often finding an appropriate conference room on short notice. The earliest I would be comfortable trying to set up a public meeting would be June 24th or 25th.

Jerry,
Sounds good. I can stop by your office (or another location) a little after 9:00.

Before we ask them….
Do you have any concerns about setting it up from our end…. public meeting announcement requirements, meeting room space, personnel availability, etc?

Thanks.

George,

I have a call with DTE at 9:00 today to cover logistics for the Hydrology Audit. Maybe you, Aida and myself could raise this issue at the end of that call. That would give DTE nearly three weeks lead time.

Jerry,
John is supportive of the meeting concept suggested by Frank during today's meeting. We would need it to be this month to be effective for our needs. Would it be possible to set that up with this short notice?

Thought we should discuss this option prior to our phone call with Fermi.
Thanks.
