U.S. Nuclear Regulatory Commission
Wash., D.C. 20555-0001

Dear Madam or Sir:

I am writing to express my opposition to the granting of a new license for ~~a new~~ the nuclear power plant in Louisa County, Virginia. Nuclear power is the most unsafe form of electricity generation. The waste from nuclear power plants is an environmental poison and a deadly health hazard. There is no safe place to store nuclear waste, and the deadly effects of it last for tens of thousands of years.

I urge you to work for the development of safe, renewable, environmentally-friendly methods of electricity production such as wind power, solar power, and geo-thermal energy.

Sincerely,

Deborah L. Bois
