DRAFT SUMMARY OF INFORMATION COLLECTION REQUEST

Title: 10 CFR PART 81," STANDARD SPECIFICATIONS FOR THE GRANTING OF PATENT LICENSES"

Current Burden/Responses: 1 hour/ 1 response

Proposed Burden/Responses: 1 hour/ 1 response

Burden Attributable to Third-Party Collections: None

Frequency of Response: Occasional

Reasons for Changes in Burden/Responses: This renewal represents no increase in the burden on potential respondents. Since no submittals were made nor are anticipated, the actual burden is anticipated to be zero.

Level of Concurrence: Trip B. Rothschild
Assistant General Counsel for Legal Counsel
Legislation and Special Projects
Office of the General Counsel

Recordkeeping Requirements in Accordance with the Retention Periods for Records Rule:
Not Applicable.

Search of the Information Requirements Control Automated System (IRCAS):
The information Requirements Control Automatic System (IRCAS) was searched to determine duplication and none was found. There is no similar information available to the NRC.

Abstract:

10 CFR Part 81 establishes the standard specifications for the issuance of licenses to rights in inventions covered by patents or patent applications invested in the United States, as represented by or in the custody of the Commission and other patents in which the Commission has legal rights.
