Subject: MOX LA revision 18?

Dave,
In its letter of 1/14/09, the applicant indicated that all the responses to radiation protection portions of its LA would be included in the next revision. that was over 1 1/2 years ago. A significant omission in the original application was its sparce description of its offsite radiological monitoring program and how its program would integrate, if at all, with the existing SRS program. I need the latest version of the LA to write chapter 10 or the SER. Do you know when will we get revision 18 to the MOX LA?
Stan
