AFFIDAVIT
SUBMITTED BY DURATEK SERVICES INC.
CONCERNING CONFIDENTIAL INFORMATION AND TRADE SECRETS

STATE OF SOUTH CAROLINA]
] *ss.*
COUNTY OF RICHLAND]

I, H. Shamkhani, depose and say that I am Vice-President, Logistics and Engineering Services for Duratek Services Inc. duly authorized to make this affidavit, and have reviewed or caused to have reviewed the information which is identified below as proprietary. Attachment 1 (Meeting Agenda) to the request letter from Dairyland Power Cooperative dated 28 April 2005 contains confidential information that should be withheld from public disclosure. In addition, the information disclosed by Duratek during the meeting is also confidential and should be withheld from public disclosure.

I have personal knowledge of the criteria and procedures utilized by Duratek Services in designating information as a trade secret or as confidential information of a commercial or financial nature. The unique decommissioning approach is considered confidential information that includes Company trade secrets incorporated into such plans and processes. The concepts to be presented during the meeting contain the type of information Duratek Services regards as protected and of the type not to be disclosed to unauthorized persons.

The information designated here as confidential is not available from public sources. Public disclosure may result in members of the local community incorrectly inferring that a decision has been made to proceed with a particular decommissioning approach. This could result in damage to the relationship between Dairyland Power and the local community and adversely prejudice any future relationship Duratek may try to develop with the local community. Additionally, public disclosure of this information would cause substantial harm to the competitive position of Duratek Services. Competitors of Duratek Services would have great difficulty in duplicating the concepts developed by Duratek Services, due not only to the financial investment of Duratek Services, but also to the unique skills, talents, and expertise of Duratek Services employees who have developed these concepts. Since there is no contract as yet to implement the Duratek concept, disclosure of this information may result in the loss of Duratek's commercial opportunity to proceed with this important project. Duratek could also lose the financial opportunity and business associated with other projects similar in nature.

H. Shamkhani

H. Shamkhani
Vice President, Logistics and Engineering Services

STATE OF SOUTH CAROLINA]

COUNTY OF RICHLAND]

On this 28th day of April, before me, a Notary Public in and for the State of South Carolina, duly commissioned and sworn, personally appeared H. Shamkhani, to me known to be the Vice President, Logistics and Engineering Services for Duratek Services, and on oath stated that he was authorized to make this affidavit on behalf of the corporation.

IN WITNESS WHEREOF, I have set my hand and affixed my official seal the day and year first above written.

Roberta Summers
