Don,

As per Ed Robinson's request below, can you support a telecon next week?

Available:

- Monday 10:30am - 2:30pm
- Tuesday after 9:00am
- Thursday 10:30am - 1:00pm

Thanks

Mike,

On December 21, 2009, Luminant (applicant) supplemented their original RAI response to Question 13.03-1 pertaining to Emergency Action Levels (EALs). In particular, the applicant's supplemental response attempted to incorporate all the known design information (set points) and where the information is not yet available, a methodology was provided that would be used to establish the set points. However, not all pages of the document were provided. Furthermore, a discussion should be held with the applicant regarding the level of detail in which the NRC expects to be included in the applicant's EAL RAI response so that the staff can make a finding of Reasonable Assurance within their SER. If possible, I would also like to discuss the applicant's response to ETE RAIs 13.03-18.A and B, as well as, 13.03-19.B. These RAIs pertain to Demand Estimation/Permanent Residents and the applicant's ETE Methodology. Therefore, I am requesting a short teleconference (20-30min) with Luminant to discuss the above.

Please let me know what dates and times work best for you and the applicant.

Thanks,

Eddie
