Subject: Call from Operations Center

Tim:

I received a call from the Headquarters Operations Officer stating they had received a request for certain information on the GE Hitachi Plant in Willmington NC from a member of the public. In particular a Mr, Ken Fox asked for:

Environmental Impact Statement information regarding laser isotope separation regarding the G.E. Hitachi Plant.

Assuming you are the correct person to handle this, could you call the gentleman back (301-262-7732) to understand his request better and provide, as appropriate, the relevant document.

Thanks, Tim (am presently the NMSS Emergency and Day Officer)
