In the Matter of Consolidated Edison Company of New York, Inc.
(Indian Point Nuclear Generating Station, Unit No. 3)
Docket No. 50-286

Gentlemen:

On May 17, 1973, the applicant filed a "Motion to Consolidate Intervenors HRFA and SOS," in subject proceeding. At the prehearing conference held at Croton-on-Hudson on May 21, 1973, the subject of the motion was discussed, and it is the understanding of the regulatory staff that, as a result of a general agreement between the parties, the motion has now become academic (Tr. 49-51). In view thereof, the regulatory staff will not respond to the motion. In the event, however, that the agreement cited above does not become effective, the regulatory staff reserves the right to respond to any motion to consolidate.

Sincerely,

/s/

Myron Karman
Counsel for AEC Regulatory Staff
