CONSOLIDATED EDISON COMPANY - INDIAN POINT 3, CO REPORT NO. 286/69-5

The enclosed report of an inspection visit to the subject facility on April 30 and May 1, 1969, is forwarded for information.

The report discusses a number of items of nonconformance with statements contained in the PSAR for work performed under a preconstruction permit exemption approved by DRL on November 15, 1968. However, in view of the positive corrective actions which have already been taken regarding the items of nonconformance and their causes, no enforcement type action is being taken by Compliance at this time. We will, however, closely monitor the implementation of their quality assurance program on future visits.
