2443 Warrenville Road
Suite 210
Lisle, IL 60532-4352

Dear Mr. Herr:

I am writing to request an amendment to Radioactive Material License No: 24-26162-01 expiration date January 31, 2016. At this time, I have only one amendment I would like to make. April 27, 2009 we purchased another nuclear density gauge from Troxler Electronic Labs. It is a Troxler 4640 series with a source serial number 77-8609 and a gauge serial number 61830. We received the gauge on May 12, 2009 and need to amend the license to include another gauge. The gauge has the same source, Cesium-137, as the gauge listed on our current license. I am attaching a copy of sales order acknowledgment for your convenience.

We anticipate our possession limit to be no more than 32mCi of the above stated source.

If you have any questions or need further information, please contact me at any time. I appreciate you time and attention to this matter.

Sincerely,

Jennifer Breuer
