Subject: FW: Rev 2 Floodplain Analysis Figures

Paul,

Please see the following request from Bill Baber:

In response to clarifications for NRC RAI 4.1.1-1, PEF provided a revised Floodplain Bounding Analysis as an attachment to their December 2, 2009 submittal to the NRC (see technical memorandum 338884-TMEM-106 Rev. 2 authored by CH2MHILL). The figures in the Rev 2 Floodplain Bounding Analysis are of poor quality; none of the shading on the figures appears to have reproduced. Please provide legible figures for the Rev 2 Floodplain Bounding Analysis.

Thanks,

Doug Bruner
