Steve,

Please see below. Where can I get my hands on the final versions of the presentations from the workshop?

Thanks,

**Jim Riley**

Hope everything is OK with you and that getting your head straight only refers to a dump truck dumping a load of work on you.

As noted in my 1/26 email to you, I'm waiting for workshop slides in a form I can reference which essentially means via email, as a package to me that I can then get into ADAMS, or on the docket.

I'm also waiting for info on the simplified equation and water hammer as discussed at the workshop, and for TSTF background info that was promised some months ago so I can have the benefit of industry thinking before having a try at what we would accept.

Finally, I'm pursuing what we can do with providing additional insights into our TI inspection process. Will keep you posted.
