Ms. Shelkey:

I received your letter dated February 23, 2010. I have just gotten back to the review. It looks OK, but I'll need a few days to make sure I haven't missed anything.

The application for this amendment was signed by Thomas Kozma, Director of Regulatory Affairs. To whom should the letters for these changes be addressed? (Keep in mind that the NRC has to treat this as two separate licensing actions: termination of the Ballard license, and issuance of a new license to Kimberly-Clark.) Do you see any need to send the cover letter and license for the termination to Ballard in Utah, and the cover letter and license for the new license to Kimberly-Clark in Georgia? Another option might be to send both to Kimberly-Clark, with a copy to Ballard Medical Products. If this latter option seems appropriate, please indicate the names to use as recipients at each location. If both should go to the same person in Georgia, I will likely just use one cover letter.

I apologize for any confusion this might cause, but this is an unusual situation, and it seems the NRC doesn't have an established protocol regarding whom the addressees should be.

I also wanted to let you know that the item bearing the date April 25, 2008, was listed with that date in the License Conditions because that date was on the NRC Form 313 (application). I can clear up any potential confusion by showing it as

"D. Application dated April 25, 2008 (letter dated April 24, 2008)"

Thank you,

Richard K. Struckmeyer
Division of Materials Safety and State Agreements
Office of Federal and State Materials and Environmental Management Programs
