Subject: RE: Teleconference

Wanda,

Thank you for arranging to have a call with us on Tuesday July 14 regarding North Carolina Department of Labor, Division of Occupational Safety and Health (OSHNC) regulation of laser safety for the proposed General Electric-Hitachi Global Laser Enrichment commercial uranium enrichment facility.

As we discussed, our environmental review team would like to discuss OSHNC plans to regulate laser safety at the proposed facility as part of our development of an Environmental Impact Statement. Timothy Johnson and his supervisor Brian Smith, who are leading the licensing review, also plan to participate.

Please let me know if you have any comments on the attached draft agenda or if any additional information would be useful. Teleconference information is included on the attached draft.

Thanks.

A. Christianne Ridge, PhD

Thanks. We will need to set up a bridge line because part of our team is in Chicago. I can set up the line and send you the call in information. Will you all be in one location, or will you need a few lines?

Wanda,

Thank you for the flexibility. I suggest we plan on 2 PM (EDT) on Tuesday, July 14. Other times could work for us as well.

Unfortunately, our branch chief will not be able to attend at any time that week, but advised that we should proceed without her. We will have our technical team working on the worker safety aspect of our Environmental Impact Statement on the call.

Thanks.

Christianne,

Any time on July 13th, 14th or the afternoon of the 15th will work for all of us here. Will any of those dates work for you?
