John,

I need you to help set up a conference call with our staff to discuss STP's responses to ITAAC classification issues in RAI 2916 (Questions 03.02.02-6 thru 9) and the COLA changes made in response to RAI 3.2.1-5. These responses were not clear as to whether they credit an existing ITAAC such as the basic configuration ITAAC to verify seismic and quality group/ASME Class classifications or whether they verify classifications by another process.

This is an open item pending clarification.

Our tentative schedule shows that Thursday (1/14) from 10 am to 11 am (EST) is open.

Regards

Tom Tai
