They are splitting all samples.

Technical meeting w/ Exelon -

IEMA doing all sampling for IEPA.

closed ~~Public~~ Mtg. 1 Monday night. for only local residents with the Residents (4) + State Agencies.

Dr - Public Health (Health effect gurus)

at the Site. - 7:00 P.M.

contactor - IEPA - Marsha Willhite 217-782-1654
Bur. chief for Bureau of Water

IEPA's approach is diff.

Rick Cobb ~~Section~~ chief under Marsha (Bulldog).

Sense of groundwater protection. Don't care about MPCh. If you are threatening to contaminate a class I aquifer they are concerned. Don't feel compelled to accept CPA standard. They don't care whether the groundwater is below the protected area or outside it. - Doesn't make any diff if its onsite or offsite. Renewal of Braidwood NPDES permit is pending. - Use this as a lever to force action by Braidwood - reduce generation of tritium / other actions.
