Washington 25, D. C.

Dear Mr. Johnson:

Re: Special Nuclear Material License SNM-33

We have an order from U. S. Nuclear for 5 kgs. of Uranium Metal 90% enriched. We would like to have an allocation for 6 kgs. of Uranium as UF_6 enriched to 90% ± 0.15%.

In the interest of expediting the allocation and simplifying some of the paper work required, we wonder if it would be possible to withdraw 6 kgs. of Uranium against our current allocation of 93% Uranium.

If this is not possible, we request an allocation for 25 kgs. Uranium as UF_6 enriched to 90% to cover the present order and any future small orders that might materialize.

Very truly yours,

MALLINCKRODT NUCLEAR CORPORATION
