Please note that additional information is needed for your exemption request from10 CFR 30.32(g) which requires that applicants for the use of sealed sources must either identify the source or device by manufacturer and model number as registered with the NRC under 10 CFR 32.210 or provide the information identified in 10 CFR 32.210(c). Specifically NUREG 1556, Vol. 20, Appendix K indicates that exemption requests must be accompanied by:

- A description of the licensee proposed exemption and the reason why it is needed;
- A description of specific compensatory safety measures that will provide a level of protection equivalent to the regulation for which the licensee proposed exemption is being requested; and
- A discussion of reasonable alternatives that have been considered

Although you may have described the proposed exemption the other information is needed.
