Rob,

Attached please find the subject request for additional information (RAI). A draft of the RAI was provided to you on July 16, 2009. A conference call was not requested to discuss this RAI. The schedule we have established for review of your application assumes technically correct and complete responses within 30 days of receipt of RAIs. For any RAIs that cannot be answered within 30 days, it is expected that a date for receipt of this information will be provided to the staff within the 30 day period so that the staff can assess how this information will impact the published schedule.

QUESTIONS for EPR Projects Branch (NARP)

01-4

UniStar letter UN#09-208, dated April 22, 2009 (ML091250439), Enclosure 2 provided "preliminary page markups for Part 1, General Information, of the CCNPP Unit 3 Combined License, Application (COLA) that reflect the anticipated post-transaction ownership and corporate organization structure for Calvert Cliffs Nuclear Power Plant (CCNPP) Unit 3." The letter stated that "[t]hese changes are based on best available information, however, the investment transaction has not yet been concluded and this information is therefore subject to change."

The NRC staff is unable to complete its evaluation of the information submitted in the above letter because it is "anticipated" and "subject to change." Please submit a revision to Part 1 of the CCNPP Unit 3 COLA regarding ownership and corporate organizational structure for CCNPP Unit 3 after the transaction closes and the information is no longer subject to change.
