Subject: Air Monitoring

Hi Terry:

During the site visit last week, you had indicated that B&W has 3-4 air monitoring stations at SLDA for a number of years, and that filters are changed and analyzed for radionuclides on a monthly basis. During the meeting, we had asked that you send us a copy of the lab analysis results for the recent months. I just want to follow-up with you since I have not gotten anything in the mail yet. Would appreciate very much if you can send us the results soon. Thanks…

Lydia Chang, Chief
Special Projects Branch
