Mark, I recently learned that Yolande has been on sick leave for awhile, when she emailed me about a separate issue recently she said that if I wanted to contact her I should call her at 410-963-8205.

She may not be getting her email frequently, and I trust that she wouldn't mind my having given you this phone number – you probably should call her to discuss the conference call -- and remember, their Church Rock hydrogeologist Lifeng Guo may be able to sit in for her during the conference call but they need to discuss that, his email is:

I am still waiting on a couple of folks to respond, but it is looking like Friday, March 12th is the best day. I want to tentatively schedule the call for March 12 at 10 am (CDT), 11 am (EDT), 9 am (MDT). Please plan for a two hour call.

If we need to change the date and time, I will let you know.

Also, please use my conference number and code:

To all,

I am only available on March 12, unless I can get in by cell phone on 8 or 9. I must take my Mother for treatment on 8-9-10. Sorry about that, just came up Friday.

**Subject:** Teleconference on Proposed Zone 3 Injection Test

Hi everyone.

I would like to set up a teleconference to discuss the UNC proposed injection test pilot for Zone 3. Mark Jancin submitted the proposal on behalf of UNC in December. We have a number of technical questions and some clarification would be helpful before written comments are provided.

Please let me know your availability for a 2-hour call within the next couple of weeks.

Thanks,

Mark
