OCT 17 1963

DLR:IB:DBH (54265)

Commanding Officer
U. S. Army Electronics Research and
Development Laboratory
Fort Monmouth, New Jersey

Dear Sir:

The following is requested in support of your application for an irradiator license dated July 24, 1963.

1. Plan and profile drawings or sketches showing the location of the GC-200 container and any local shielding during irradiation tests. Also specify whether or not this will be the permanent irradiation configuration.

2. Calculated or measured radiation profiles in the irradiation area when the source is in the "down" or shielded condition.

Sincerely yours,

Daniel B. Howell
