Thanks,

When is our entrance meeting?

Lou Carson is only available the first week. He is doing buried piping. He will want to walk down the systems included in this AMP. Also, he is evaluating the connection between LR buried piping and the NEI 07-07 ground water initiative (which includes buried piping). Other systems of interest, if not included in the LR AMP, are liquid radwaste.

He will want to walk down systems on Monday.

If you have any questions, please call me or Lou at 817 860-8221.

Have a great day!

Below is the information that is needed to get your team into the system for the inspections. Please respond to Cindy Kaminski, who I have copied on this email, with the information requested. Please also provide a list of the members of your inspection team so that Cindy can make sure we have the information for all of the individuals.

If contractor for NRC - name of company

Attached are the read and signs they will need to complete (just last page) and return to Cindy so that she can enter them into PIMS.
