Subject: Open Cycle Cooling Water Program

Good afternoon,

I have two requests related to the Open Cycle program and question below.

I will be reading the 10 element descriptions for my programs over the next couple of days. However, (1) I will be asking for the GL 89-13 Open Cycle Program if I do not already have the program description. (2) I would also like all of the licensing correspondence to and from NRC related to GL 89-13.

Are these white papers related to OE PG&Es take on the impact of the OE on the aging management programs? I have not read one yet.

Have a great day!!
