Subject: Thank you for meeting me at the Riverton WY site

Mr. Goggles

I wanted to express my thanks to you for taking time last Wednesday, September 29, 2010, to meet with me, and provide your perspectives and concerns associated with the Riverton, WY UMTRCA site. These will be very helpful as I assume project management responsibilities for the site. During the meeting you indicated that you would provide me with a written summary of the issues you see as pertinent to ensuring the protection of public health and safety and the environment at the site, and as a way to help me better understand your perspectives and concerns. I look forward to receiving this summary.

During the meeting I indicated that I would discuss the upcoming USEPA meeting, currently scheduled for the week of October 25, 2010, with my management and let you know if USNRC staff would be able to observe the meeting. I have discussed the meeting with my management, and, due to workload and scheduling issues, we will not be able to observe the meeting. However, I look forward to working with you and the WREQC in the future and please feel free to contact me if you have any questions or concerns.
