Location of Visit/Conference:

NAME OF PERSON(S) CONTACTED OR IN CONTACT WITH YOU	ORGANIZATION (Office, dept., bureau, etc.)	TELEPHONE NO.
YAWAR FARAZ		301-504-2669

ROUTING

NAME/SYMBOL	INT

SUBJECT: Shieldalloy (+ MET)

SUMMARY

1. Yawar is being transferred to Fuel Enrichment soon and will be turning over Shieldalloy + MET when a new individual is ID'd
2. PNL is preparing an EA for Shieldalloy. Yawar is trying to set up a visit for them on 2/17/93. He will call when date is confirmed. He would like a RI rep there. He plans to attend w/ PNL. They are concerned about the
   a) off site contamination
   b) characterization of site done by Shieldalloy — appears to be insufficient info for PNL

to prep the EA and e) he is concerned about Shieldalloy's ability to comply with new Part 20 limits and does not plan to review until this issue is settled. Currently appears to release 0.5 mCi/year thorium from baghouse. This does not include release from dust pile or releases of radon + thoron from slag pile. He believes personal lapel air samples also show significantly high levels to workers.

MEI has submitted a proposal to characterize a pond and show that the pond does not exceed 0.05% and/or that the total quantity would not exceed the "small" or "unimportant" defs in Part 40.

Varian is willing to ~~MM~~ accept these arguments if they can show that the wetland remains wet and concentration/quantities will not be exceeded.
