SUBJECT: 10 CFR 30.36 NOTIFICATION REGARDING DECOMMISSIONING OF RADIOLOGICAL INCINERATOR AND ASSOCIATED BUILDING

Dear Mr. Clement:

This refers to your February 13, 2007, letter informing the NRC that Pharmacia and Upjohn Company, LLC.'s intends to decommission the incinerator used for incinerating radiologically contaminated wastes and Building 172, which houses the incinerator at 7000 Portage Road, Kalamazoo, Michigan. This also refers to my March 9, 2007, telephone conversation with you regarding this notification. Based on your letter and our discussion, a decommissioning plan is not necessary. As discussed, although not required by the NRC, we will appreciate receiving the D&D Plan, and a schedule of decommissioning activities, such that our inspectors, if warranted, may schedule an on-site inspection.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html.

If you have any questions, concerning this letter or future inspection activities, please do not hesitate to contact me at (630) 829-9856, or by e-mail at gmm@nrc.gov.

Sincerely,

/RA/
