Subject: RE: Input/Output Files

Dave,

As I understand it, the input/output files have a format that works for the software model. We have access to that software so, you should provide the files in that format.

Janelle

Janelle – Also, as we discussed yesterday, any special file format and content requirements that we should follow?

Thanks.

Dave,

In response to your question in the email below, any of the HEC-RAS, HEC HMS, or other surface water and/or groundwater models used in the development of the FSAR chapter 2.4 would be helpful.

Thanks

Janelle

Subject: Input/Output Files

Janelle – Based on the requests made during the Hydrology Audit Site Visit, and as we spoke yesterday, Exelon would like to formally submit the HECRAS Model input/output files for staff use. To ensure we submit the correct information, can you confirm with the staff reviewer which of the flooding analyses the NRC was requesting the HEC-RAS files for.

Thanks.

Dave Distel
