MILLSTONE POWER STATION UNITS 2 AND 3
NORTH ANNA POWER STATION UNITS 1 AND 2
SURRY POWER STATION UNITS 1 AND 2
SCOPE OF SYSTEMS CLARIFICATION

On March 27, 2009, the Nuclear Regulatory Commission (NRC) published the final rule, Power Reactor Security Requirements, in the Federal Register. The new 10 CFR 73.54 requires licensees of operating nuclear power plants to submit a Cyber Security Plan for Commission review and approval. This section also requires that each submittal include a proposed Implementation Schedule. Dominion Energy Kewaunee, Inc. (DEK), Dominion Nuclear Connecticut, Inc. (DNC), and Virginia Electric and Power Company (Dominion) submitted a Cyber Security Plan and requests for amendments to the Operating Licenses (OLs) for Kewaunee, Millstone, North Anna, and Surry Power Stations, as well as an Implementation Schedule, on November 20, 2009 (Serial No. 09-640). DEK, DNC, and Dominion supplemented this submittal with letters dated July 12, 2010, August 5, 2010, and September 23, 2010 (Serial Nos. 10-349, 10-349A, and 10-349B, respectively).

DEK's, DNC's and Dominion's September 23, 2010 letter committed to supplement the Cyber Security Plan submittal by revising Section 2.1, "Scope and Purpose" to clarify the balance of plant Systems, Structures, and Components (SSCs) that will be included in the scope of the Cyber Security Program. The revised Section 2.1 is provided in the attachment to this letter, and supersedes the previously submitted Section 2.1 in its entirety. The changes to Section 2.1 do not impact the conclusions

The Attachment to this letter contains Security-Related Information which is to be withheld from public disclosure under 10 CFR 2.390. Upon removal of the Attachment, this letter is decontrolled.
