Do we have "Go to Meeting"? I don't recall ever using it.

Van

I was away from my desk. It will take some time for Areva to set up a "Go to Meeting"
Can we do this at 2p EST (11a PST)?

Dimitri, I finally found an NRC COL project manager (Alicia Williamson) , and she is attempting to contact Bob Schaaf to join as well. She asked that we delay until 11:45 and it may take a few more minutes to get someone from NRC on the call. What is the call in number? I hope to be in my office in 10 minutes or so, but my participation isn't critical.

Will a "Go to Meeting" work for you? I believe it would be the most efficient venue (we can talk and view at the same time).

Van is available. I'm trying to arrange for NRC presence.

Dimitri,

Laura is in flight, returning home today. Is the 11:30 am timeframe EST or PST? I will check with Laura's deputy and Van Ramsdell to see if they can make this call or whether we will have to reschedule.

Are you available to discuss the CDF values (broken down by Release Category) question around 11:30a today.

We have the following options to facilitate the discussion:

1) Review the document with them on a "Go To Meeting"

2) Make the document available for audit

3) Make the document available in a reading room

4) Verbally convey data (not preferred due to higher probability for error)

Regards,

Dimitri Lutchenkov
