NAME OF PERSON(S) CONTACTED OR IN CONTACT	ORGANIZATION (OFFICE, DEPT.ETC.)	TELEPHONE NO.
Anshuman Balekai, P.E. V.P. of Field Operations & Acting Radiation Safety Officer	Grear Lakes Soil & Environmental Consultants, Inc. 600 Territorial Drive, Suite G Bolingbrook, Illinois 60440	630-754-8700 FAX -8705

SUBJECT
Control No. 315999 – Re - License renewal request by Grear Lakes Soil & Environmental Consultants, Inc. via letter dated February 1, 2007, and facsimile letter dated March 22, 2007, for NRC License No.12-26735-01.

SUMMARY
In a telephone conversation with Mr. Balekai on this date, the following matters were discussed:

Mr. Balekai clarified that while they do not possess the Humboldt Model 5001 gauge nor do they intend to use this model in the future, they have in fact possessed this make and model of gauge in the past. I explained that since they have possessed it in the past, before we can delete it from the license, they will need to provide records documenting the final disposition of the gauge including the following: 1) the name of the recipient; 2) date of transfer; 3) a copy of a record of receipt of the licensed material by the recipient, 4) a copy of the recipients license that would authorize their receipt of the licensed material or alternatively, their license number; and 5) a copy of the leak test record of the device, current as of the date of transfer, which confirms the non leaking status of the sealed sources within the device. It was agreed that the license as renewed would continue to authorize the Humboldt Model 5001 gauge/sources and that the licensee could request an amendment to the license for its removal from the license, at a later date, upon submitting the information described above.

ACTION REQUIRED
License reviewer to renew license as described above.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this conversation record will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html (the Public Electronic Reading Room).
