Andy:

Mark's address for the Calvert Cliffs draft EIS. However, note his other requests. I will trust your discretion on how to respond. If I can offer any advice, please let me know.

Chip

Hi Chip,

I'm back in Miami. The Boston trip was very good. Thank you for contacting me.

Would you kindly send me,

NUREG-1474 "Effect of Hurricane Andrew on Turkey Point" with supplements, March 1993

and

NRC Information Notice 93-53 "Effects of Hurricane Andrew ... Lessons Learned" July 20, 1993.

Mark Oncavage
12200 SW 110 Avenue
Miami, FL 33176

I didn't follow the news on Turkey Point back in 1992, part of the roof of my house blew off, 8 windows were sucked out of their frames, and I had 4 inches of water on all of my floors. Nasty stuff.

I'd also like to get two important questions answered.

Will the AP 1000 designed be certified in its present form?

Is there a federal agency insisting that FPL construct the eastern transmission corridor and the western transmission corridor, even if Units 6 & 7 are never built?

Sincerely,
Mark

Hi Mark!

Hope that you're enjoying Boston - the two meetings on Turkey point went well - good attendance and lots of good information for the NRC. The acoustics in the Y were horrible however but we muddled through. We have a copy of the Calvert Cliffs draft EIS for you. What's your address? Thanks. Let me know if you want more information on the meetings.
