Forum is for letters addressing topical issues. Authors must sign the letters and include addresses and phone numbers for verification. Letters may be no longer than 300 words and will be edited for grammar, style and length. Mail your submission to Mailbag, P.O. Box 1717, Johnson City, Tenn. 37605-1717, or mailbag@johnsoncitypress.com.

Nuclear Fuel's license

Nuclear Fuel Services in Erwin is requesting a renewal of their license — for the next 40 years. Sure. Why not? They have a "clean" record of operations.

The Nuclear Regulatory Commission had "no public comment" when they held an Erwin meeting on Oct. 26. Why did they attend?

No significant impact on the environment? Both NFS and NRC will have us believe the air and water are perfectly safe. NFS has been allowed to "regulate" itself. A possible kickback somewhere?

Finding even a trace of uranium in the Nolichucky River is a bad sign.

I say no to the 40-year idiocy.
