Subject: RE: NRC Hydrology Site Visit and Audit at Bechtel Office

Thanks Janelle.

We will continue to flesh out the draft agenda and let you know how the timing looks for seeing the Victoria Barge Canal (VBC) in addition to the proposed raw water intake canal location. If it appears that time constraints will prevent us from taking your team to the Port of Victoria barge facilities at the terminus of the VBC, we can at least view the linear portion of the canal from the overpass on State Hwy 35.

We will provide you with a draft agenda for comment later today or tomorrow morning.

Thanks again and have a great day,
JT

Hi Josh

No problem. As a clarification, it refers to the intake canal. However, is it possible to see both given the time that we have?

Janelle

Hi Janelle,

Thank you very much for passing along the information below. In order to facilitate the site visit planning, could you please clarify whether the “canal” mentioned under the GW / SW heading refers to the proposed VCS raw water makeup system intake canal (and pumphouse) location or the Victoria Barge Canal?

Thanks a bunch,
JT

Subject: RE: NRC Hydrology Site Visit and Audit at Bechtel Office

Good Morning Dave,

In preparation for the NRC Hydrology Site Visit in Victoria, Texas on Monday, October 18th (and possibly Tuesday, October 19th), I have the following to share:

NRC Participants:
Richard Raione
Jill Caverly
Henry Jones
Joseph Giacinto
Margaret Sharkey
Janelle Jessie

NRC Contractors:
Wade Ross (Army Core of Engineers)
Dennis Mekkers (ACE)
Tom Woods (Idaho National Labs) + 1 other from (INL)
Eric Geist (United States Geological Survey)
Pat Lynette (USGS)

Proposed Agenda:
8:15am: NRC and Contractors arrive at Holiday Inn Express?? (Exelon's hotel of choice)
8:30am: Introductions and Overview Presentation from Exelon
9:00am: Travel to site
9:30am-12:30pm: Site Visit
12:30pm-1:00pm: Wrap up and end site visit
Note: NRC staff and contractors plan to travel to the area on Sunday, October 17th and will attempt to reserve SUVs for this trip.

Ground Water and Surface Water Experts request that Exelon point out:
-location of intakes
-location of proposed ponds (and any other hydrologic features that may be of interest)
-monitoring wells
-the perimeter of the site (drive outlining the perimeter)
-foot print of the power block area
-the canal and it's association to the river (Guad.)

Tsunami Experts request that Exelon point out:
Anything of interest in the vicinity of Matagorda Bay

Other requests from the staff:
An 8 ½ x 11 inch topographical map of the site (the ones in the application don't print clearly) and anything else that may be helpful as a supplement to highlight hydrologic features.

Status on the Audit (week of November 29th at Bechtel's offices in Frederick, MD:
We are still working on the info needs for the audit at Bechtel's offices the week of November 29th. I'll share that with you as the date approaches.

Let me know if you have any questions.

Janelle

Janelle – The following confirms our discussion today on proposed dates for the subject NRC meetings:

1. NRC Hydrology Site Visit onsite at Victoria, Texas, Monday, October 18 and possibly Tuesday, October 19. Travel to Victoria, Texas on Sunday, October 17.

2. NRC Hydrology Audit at Bechtel office (Frederick, MD) Monday November 29 (travel to Bechtel office), Tuesday, November 30, Wednesday, December 1, and possibly Thursday, December 2. Surface water – November 29, 30, and December 1; Groundwater – Wednesday, December 1 and possibly Thursday, December 2.

3. NRC Environmental Scoping Meeting in Victoria, Texas – Thursday, December 2.

Thanks.

Dave Distel
