SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE

On December 14, 2006, you contacted the U.S. Nuclear Regulatory Commission (NRC) and indicated that you wished to terminate your NRC radioactive materials license upon the issuance of a new license for your Idaho location. An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(20)(ii).

Based on these conclusions no further remediation or actions with respect to NRC regulated material is required. NRC license number 53-27716-02 is hereby terminated.

In accordance with 10 CFR 2.390 of the NRC's "Rules of practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html.

If you have questions or require clarification on any of the information stated above, we encourage you to contact us at 817-860-8132.

Sincerely,

/RA/
