SUBJECT: ACCEPTANCE FOR REVIEW OF PRESSURIZED WATER REACTOR OWNERS GROUP (PWROG) TOPICAL REPORT BAW-2308-NP, REVISION 2, "INITIAL RT_{NDT} OF LINDE 80 WELD MATERIALS" (TAC NO. MD4241)

Dear Mr. Bischoff:

By letter dated February 5, 2007, the PWROG submitted for U.S. Nuclear Regulatory Commission (NRC) staff review Topical Report (TR) BAW-2308-NP, Revision 2, "Initial RT_{NDT} of Linde 80 Weld Materials." The NRC staff has performed an acceptance review of BAW-2308-NP, Revision 2. We have found that the material presented is sufficient to begin our comprehensive review. The NRC staff expects to issue its request for additional information by July 2, 2007, and issue its draft safety evaluation by December 15, 2007. The NRC staff estimates that the review will require approximately 200 staff hours including project management time. The review schedule milestones and estimated review costs were discussed and agreed upon in a telephone conference between Thomas J. Laubham, Program Manager, and the NRC staff on April 4, 2007.

Section 170.21 of Title 10 of the *Code of Federal Regulations* requires that TRs are subject to fees based on the full cost of the review. You did not request a fee waiver; therefore, NRC staff hours will be billed accordingly.

If you have questions regarding this matter, please contact Sean E. Peters at (301) 415-1842.

Sincerely,

/RA/

Stacey L. Rosenberg, Chief
Special Projects Branch
Division of Policy and Rulemaking
Office of Nuclear Reactor Regulation
