SUBJECT: RECEIPT OF APPLICATION – ACKNOWLEDGMENT LETTER

Dear Ms. Podolak:

This letter is to acknowledge receipt of your request dated October 5, 2007. You supplemented the application by letter dated October 25, 2007; however, that supplement was received by me on November 7, 2007. In your letter you requested the U.S. Nuclear Regulatory Commission to approve changes made to the design drawings referenced in Certificate of Compliance No. 6613, for the Model No. 702 package. We have established a schedule for the technical review of your request. The schedule allows the staff to issue a possible request for additional information (RAI) in March 2008. To meet the schedule, it is incumbent upon QSA Global, Inc. to respond promptly and comprehensively to any RAI. If no RAI is needed, and based on the staff's evaluation the revised Certificate of Compliance for the Model No. 702 may be issued at approximately that time. Also, if during our review process we find that other NRC priorities significantly impact this schedule, I will notify you in writing with a revised schedule.

Should you have any questions regarding this matter, please do not hesitate to contact me at (301) 492-3285.

Sincerely,

/RA/
