

**Executive Summary:**

Utah State University will offer NRC scholarships in the amount of \$10,000 per year to six Junior and six Senior students in the College of Engineering. Assuming they are able to continue to meet the program criteria (e.g. minimum GPA), the Juniors will receive the same award in their Senior year. In return, each student will make a commitment to serve 6 months in the nuclear industry for each year of support. Each student will be provided with the opportunity to perform nuclear-related research with faculty from the Mechanical and Aerospace Engineering Department. The students will travel annually to Idaho National Laboratory and partake in a seminar series at USU.
