FIRE PROTECTION PROGRAM

Dear Mr. Varga:

On June 12, 1980, Carolina Power & Light Company (CP&L) informed you that we anticipated that the information you requested concerning Item 3.1.24 "Electrical Cable Penetrations" would be available for your review by November 1, 1980. CP&L has negotiated a contract for the performance of a test program to provide the requested information. However, we have recently been informed that a draft of the results of the tests will not be available for CP&L review until late October. We would then require some time to review the results, resolve questions that may arise, and ensure that the report is complete and accurate. It is our intention to complete this review as quickly as possible. Although it is unlikely our review can be completed by November 1, 1980, we feel confident this information will be available for your review prior to December 1, 1980. We will advise you if there should be any further changes in the availability of this information.

Yours very truly,

for E. E. Utley
Executive Vice President
Power Supply and
Engineering & Construction
