Subject: RE: Seabrook

Dear Mr. Comley:

As the Seabrook project manager (PM), I have the responsibility for preparing and managing the review and issuance of license amendments, exemptions, relief requests, safety evaluations, and other documents associated with the safety and regulation of Seabrook. As the PM, I serve as the licensing authority regarding the maintenance and amendment of Seabrook's licensing and design basis. My knowledge as a PM of Seabrook's licensing basis is intended to support the NRC's response to potentially significant events, generic safety issues and assessment of licensee performance.

My knowledge as a PM of Seabrook's design and licensing information makes the PM a necessary component in responding to allegations, controlled and routine correspondence, generic communications, and other requests for information from stakeholders. As the Seabrook PM, I serve as the primary licensing interface between headquarter organizations and licensees or regional offices in matters pertaining to Seabrook. As the PM, I integrate information obtained from all sources and ensure the proper dissemination to the applicable internal/external stakeholders.

Sincerely,

John Lamb

Mr. Lamb, thank you for getting back to me?

What has prompted you to contact me? Has this originated from Mr. Mark Satorius, Executive (EDO) Director of the Nuclear (NRC) Regulatory Commission?

I was informed 4/13/2015 Ms, Jane Kreuter (Mr. Sartorius assistant) was contacted again concerning a previous e-mail I received on January 12, 2015, I was informed that date a Conference call would be arranged for Mr. Satorius and I to discuss not only my concerns about Seabrook but other matters including cover-ups within the NRC.

Please reply,

Stephen B. Comley Sr.
Founder of We The People a National Whistleblower Non-Profit Organizsation
