NOTICE OF SIGNIFICANT MEETING

THIS MEETING IS OPEN TO PUBLIC ATTENDANCE

Name of Licensee: Exelon Generation Company, LLC

Name of Facility: Clinton Power Station

Docket No: 50–461

Date and Time: Thursday, June 25, 2015
1:00 p.m.–4:00 p.m. (Central Standard Time)

Location of Meeting: U.S. Nuclear Regulatory Commission Region III Office
Suite 210
2443 Warrenville Road
Lisle, IL 60532–4352

Purpose of Meeting: This is a meeting between the U.S. Nuclear Regulatory Commission (NRC) and Exelon Generation Company, LLC, to discuss the significance associated with an apparent violation of design control requirements resulting in an associated violation of the technical specifications to the station's license for a system being inoperable for a period longer than the technical specification allowed outage time. The apparent violation is discussed in NRC Inspection Report 05000461/2015001 (ML15134A224), and the issue appears to be of low to moderate safety significance, i.e., White.

The NRC's Policy Statement, "Enhancing Public Participation in NRC Meetings," effective May 28, 2002, applies to this meeting. The policy statement may be found on the NRC website, www.nrc.gov, and contains information regarding visitors and security.
