Dear Mr. Desilets:

The purpose of this letter is to inform you of the individual examination results for your applicants on the initial written examination conducted on April 27, 2007, and the walkthrough (overall) and/or simulator operating tests administered April 30 to May 8, 2007 at your facility. This meets the intent of Section E.1 of the Examination Standards (ES 501) in NUREG 1021. Thirteen individuals were administered the examination and thirteen passed. However, as explained in paragraph D.3.c of Examination Standard (ES) 501 in NUREG-1021, “Operator Licensing Examination Standards for Power Reactors,” Revision 9, we will not issue one license until you certify in writing that the applicant has acquired all of the training and experience for which he was previously granted a waiver. This information is considered to be "proprietary" in accordance with 10 CFR 2.390 and it supplements the information contained in the related examination report for your facility which will be issued shortly.

Enclosure 1 is the completed ES-501-2, Power Plant Licensing Examination Results Summary, and is a summary of overall examination results.

Enclosure 2 contains the individual results ES-303-1 and 303-2, Operator License Examination Report, for the applicants. Contained therein are the deficiencies noted for each applicant. In accordance with your Systems Approach to Training (SAT) Program, we expect that you will review these results and provide appropriate remedial training for the individual independent of the overall pass status. The applicants have authorized the release of this information to your facility by signing Block 19A of NRC Form 398.

Enclosure 3 is a copy of the licenses.

Thank you for your cooperation in this matter. Please refer any questions you have to me at (610) 337-5046.

Sincerely,

/RA/
