Mr. John Dolan, Vice President
Indiana and Michigan Electric Company
Post Office Box 18
Bowling Green Station
New York, New York 10004

Dear Mr. Dolan:

By letter dated October 31, 1980 from D. G. Eisenhut you received a copy of NUREG-0737 "Clarification of TMI Action Plan Requirements." Item I.A.1.3.2 in this document defined new shift manning requirements for normal operation that must be implemented by Technical Specification before July 1, 1982.

This letter is to request that you review your implementation schedule to ensure that the July 1, 1982 deadline will be met. If your review reveals problems that require staff attention you should submit sufficient documentation by February 1, 1982 to permit the staff to complete its review in a timely manner to prevent impact on the July 1, 1982 deadline.

You are also reminded that, because of its limited manpower and resources, the NRC Operator Licensing Branch should be contacted as early as possible to arrange dates for license examinations for your operator candidates.

Please contact us if you have any questions related to these requirements.

HA 4

Sincerely,

Original signed by:
S. A. Varga
