DOCKET NO. 11005711

DOCKETED
USNRC

February 20, 2008 (3:20pm)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

February 10, 2008

I can't believe that reasonable, intelligent American people would even consider bringing radioactive waste from a foreign country into Utah or any other state to be stored. Are the executives from EnergySolutions so hungry for money that they would sell their future well-being and the well-being of their fellow citizens?

This should be a wake-up call for all of us. Please don't allow this to happen. Other countries must take responsibility for their own garbage, dangerous and otherwise.

Our children and grandchildren must be protected from all kinds of dangers so that they might have a fair chance on this earth. If they are too young to fight for these rights, then we as adults must do it for them.

Please let the answer to EnergySolutions or any other company of their kind be a firm and unequivocal NO, NO, NO.

I appreciate your help.
